Objective

To obtain a Software Engineering Internship to leverage my experience in application development and web based projects, while enhancing my skills in software engineering, debugging, and system optimization in a professional setting.

Education

Bachelor of Science in Software Engineering Noakhali Science and Technology University, Bangladesh CGPA: 3.47 / 4.00 (up to 5th semester)	2023 – Present
--	----------------

Skills

- **Languages:** C, C++, Python, Java, Dart
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Flutter
- **Tools:** Git, GitHub, VS Code, Eclipse, Figma, XAMPP
- **Database:** MySQL, Firebase
- **Concepts:** Data Structures, Algorithms, OOP
- **Data Science Tools:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn (familiar with data analysis and visualization)

Projects

Safelink NSTU <i>Flutter, Firebase, Dart</i>	GitHub
--	--------

- Developed a mobile safety app with SOS features (button press, shaking, volume key) to instantly alert proctors during emergencies.
- Implemented real-time notification system with SMS/call alerts and escalation to proctorial body l.
- Integrated live GPS tracking and manual indoor location sharing to help authorities monitor and respond to students quickly.

Bubble Typing Game <i>Java, GUI</i>	GitHub
---	--------

- Developed a 3-level interactive typing game with bubbles containing letters, words, and math expressions.
- Implemented matching-based bubble pop mechanism with scoring and dynamic targets.
- Added automatic level progression upon completing each level's target.

Project Management Tool <i>HTML, CSS, JavaScript, Node.js</i>	GitHub
---	--------

- Built a web-based tool to manage tasks and projects efficiently.
- Implemented backend functionality using Node.js.

Image Steganography <i>Java</i>	GitHub
---	--------

- Developed a system to hide and retrieve data inside images.
- Applied object-oriented programming concepts for secure implementation.

Campus Management System <i>Cisco packet Tracer , Computer Networking</i>	GitHub
---	--------

- Designed a campus network in Cisco Packet Tracer connecting departments and labs.
- Implemented IP addressing, subnetting, and VLAN for secure communication.

Experience

Software Engineering Intern (Remote)

20 February, 2026 – 20 March, 2026

Company Name: CODE ALPHA

- Worked on a single assigned software development project throughout the internship period.
- Gained practical experience in software development workflow and remote collaboration.

Courses & Certifications

Database Management System (EDGE Program)

- Completed a structured course on Database Management covering relational database design, SQL and query optimization.
- Earned a certified completion certificate from the EDGE Program.
